

**Checklist – customer/inquiry:**

--

**Spezifikation ceramic-part / ceramic-bearing**

Bearing type / or drawing	
Dimensions d x D x B	
Pieces / demand	
Problem	
Solution / Target	

**Environmental circumstances**

Drive speed (U/min.)	
Endurance (h/T/J)	
Temperature in C°	
Load in kN (radial, axial or others)	

**Environmental conditions**

Liquid contact / which medium	
Try air or high air humidity	
Dust or dirt	
Chemicals / which	
Vacuum / in mbar	
Inert gas atmosphere / which Gas	
Media lubrication / which medium	
diverse	

**Pervious component**

Description	
Material	
Lubrication	
Input / which result
